

WHAT IS CLAIMED IS:

1. A process of offering imaging services to a customer, the process comprising:

offering at least one imaging service to a customer prior to the customer's attendance at an entertainment event or while the customer is at the entertainment event;

recording an imaging service selected by the customer and assigning an identification code to the customer selection, said identification code including at least information on the selected imaging service and information on a seating location of the customer at the entertainment event; and

supplying images to the customer based on the selected imaging service, said images including images of participants in the entertainment event and images of at least the customer while viewing the entertainment event.

2. A method according to claim 1, wherein said step of supplying images to the customer includes the steps of:

setting up remotely controlled cameras throughout a venue at which the entertainment event is to take place; and

using the cameras to take photographs of the event as it occurs and photographs of participants in the event as it occurs based on the selected imaging service.

3. A method according to claim 2, wherein said step of supplying images to the customer further includes the step of:

using the cameras to take photographs of the customer at his/her seating location while viewing the event based on the seating location information.

4. A method according to claim 1, wherein said information on the selected imaging service includes information reflective of a customer preference with regard to the participants at the entertainment event.

5. A method according to claim 3, wherein said photographs are taken at an appropriate moment of capture which is reflective of a period of high volume and/or excitement during the entertainment event.

6. A method according to claim 1, wherein said seating location of the customer at the entertainment event is determined by scanning a ticket.

7. A method according to claim 1, wherein said selections of images of the entertainment event are made by the customer at a location remote from the site of the entertainment event.

8. An imaging services kiosk comprising:
an imaging services display section adapted to display a menu of imaging services to a customer; and
a customer input section adapted to permit a customer to select an imaging service from the menu of imaging services and enter seating information representative of a seating location of the customer at an entertainment event, such that said selected imaging service comprises creating images for the customer which includes at least one image of participants at the entertainment event and at least one image of the customer while viewing the entertainment event.

9. An imaging services kiosk according to claim 8, wherein said customer input section is further adapted to permit the customer to input preferences with regard to the participants at the entertainment event.

10. An imaging services kiosk comprising:
an imaging services display section adapted to display a menu of imaging services to a customer, said imaging services being associated with an entertainment event which will be attended by the customer;
an image capture device which is adapted to capture an image of the customer; and

a customer input section adapted to permit the customer to select an imaging service from the menu of imaging services, such that said selected imaging service comprises creating a composite image which includes at least one image of the entertainment event and/or at least one image of participants at the entertainment event combined with the customer image captured by the image capture device.

11. An imaging services kiosk according to claim 10, wherein said customer input section is further adapted to permit the customer to input preferences with regard to the participants at the entertainment event.

12. An imaging services kiosk comprising:

an imaging services display section adapted to display a menu of imaging services to a customer, said imaging services being associated with an entertainment event which will be attended by the customer;

an image capture device which is adapted to capture an image of the customer;

an input port to permit an uploading of customer images into said kiosk; and

a customer input section adapted to permit the customer to select an imaging service from the menu of imaging services, such that said selected imaging service comprises creating a composite image, said composite image including at least one image of the entertainment event and/or at least one image of participants at the entertainment event combined with at least one of the customer image captured by the image capture device or the uploaded image.

13. An imaging services kiosk according to claim 12, wherein said customer input section is further adapted to permit the customer to input preferences with regard to the participants at the entertainment event.

14. An imaging services kiosk according to claim 12, wherein said customer input section is further adapted to permit the customer to select images of the participants in the entertainment event.

15. An imaging services kiosk according to claim 12, wherein said customer input section is further adapted to permit the customer to select images of himself in the entertainment event.

16. A method of displaying images and offering imaging services to a customer while at an entertainment event, the method comprising:

displaying images to a customer at an entertainment event on an interactive display screen in proximity to a seating location of the customer, said displayed images comprising at least one of images of participants in the entertainment event and images of the customer while viewing the entertainment event; and

offering an interactive selection session to the customer to permit the customer to select a desired image or images from the displayed images and select a desired image product representative of the desired image or images.
